

MARGARET BODE'S CAY

MARGARET BODE'S CAY, EXUMA CAYS

This Cay is about 1200 feet long and contains about 9 acres. It is a rocky cay with good soil and large trees. Along the shore it is 2 feet above H.W.M - while inland rises to 10 feet above H.W.M. Along the northeast, east and southeast are creeks with shallow water; other sides are bordered by mangroves.
